

Mohamad Alghrasi

Junior Full Stack Web Developer

mohamadalghrasi@gmail.com | 0787262816 | [LinkedIn: Mohamad Alghrasi](#)

Summary

Full Stack Web Developer (Entry Level) with hands-on experience building web applications using HTML, CSS, JavaScript, PHP, and Laravel. Focused on developing clean, maintainable code and implementing practical features through real-world projects. Comfortable working in team environments and continuously improving technical and problem-solving skills.

Education

B.Sc. in Computer Science, The University of Jordan

Oct 2020- Jun 2025

Experience

Web Developer | Greater Amman Municipality – On-site

Jun 2026 – Present

- Working on modernizing and standardizing user interfaces across 100+ municipal e-services, implementing a cohesive design system and ensuring full responsiveness to enhance public accessibility.

Full Stack Web Development Intern | Orange Coding School – Hybrid

Oct 2025 – Jan 2026

- Developed backend features using **PHP & Laravel**, including routing, controllers, and database interactions.
- Built and debugged responsive frontend components using HTML, CSS, and JavaScript.
- Collaborated in team projects using **Git/GitHub**, conducting code reviews and following agile workflows.
- Improved problem-solving skills through debugging and iterative feature implementation.

Projects

BookSphere – E-Commerce Web Application

Dec 2025

[GitHub](#)

- Developed a PHP-based book e-commerce web application using HTML, CSS, and JavaScript with full CRUD functionality.
- Collaborated with a teammate by dividing admin and user responsibilities, using GitHub for version control, integration, and debugging.

Sakan – Student Housing Marketplace (Team Project)

Nov 2025

[Figma Design](#)

- Contributed to a team-based web platform enabling students to find nearby housing through search, filtering, and university-based listings.
- Worked collaboratively on feature design, user flows, and application structure for a multi-role system.

Technical Skills

- Programming languages:** JavaScript, **PHP**, SQL, C++.
- Web Technologies:** HTML, CSS, MySQL, **Laravel**, Git, GitHub, Figma.
- Core Concepts:** **OOP**, UI/UX Design, CRUD Operations.
- Soft Skills:** Problem Solving, Communication, Teamwork, Self Learning.

Languages

- Arabic (Native).
- English (intermediate).
